REICHTAG BACKS DELEGATES WITH ACCEPTANCE VOTE

**Dissolution Feared in Face of
Possibility of Veto of
Report**

AGREEMENT ENDORSED

**Acceptance Follows Hours of
Debate of Chancellor's
Report**

(By the Associated Press)
Reichstag today accepted the Dawes reparation plan agreement concluded at the recent London conference by adopting a vote of 314 to 127 the railroad bill to put into effect the provisions of the London agreement. A two-thirds majority is required.

The German nationalists whose open opposition to the agreement and whose attack on it during the debate yesterday and today has made the vote problematical, voted in favor of the railroad bill but against the banking bill another of Dawes measures which was nevertheless adopted by a vote of 295 to 172, a two-thirds vote being unnecessary on this bill.

BERLIN, Aug. 29.—A final vote on the government's bill necessary to carry out Germany's part of the Dawes reparation program will be at 4 o'clock this afternoon and it now appears certain that the reichstag will endorse the London agreement.

The reichstag this morning continued the debate which had gone on in a lengthy and acrimonious fashion for seven hours yesterday. It was not believed, however, that it would be necessary to use the dissolution decree which had been signed by the chancellor in the event the house withheld its approval of the pact elaborated at the international conference.

Chancellor Marx in a final appeal this morning for the acceptance of the pact suggested that the resolutions which the nationalists had submitted yesterday should be modified so as to enable the government to support them.

Meanwhile, negotiations were going on behind the scenes and there was feverish activity in party circles with well informed persons generally conceding that there was at least an even chance for the adoption of the London agreement.

GERMAN SEES PUBLIC SPEAKING ON INCREASE

Prof. J. L. German of the high school faculty states that the increasing interest in the subject of public speaking bids fair to lead to a heavy enrollment in that department during the coming term. In fact, the high schools all over the state, realizing the importance of training students for public speaking, are emphasizing the work with the result that it is gaining in popularity and contests are constantly growing in interest.

Prof. German states that he will have some excellent material from which to select a debating team this year. The one of last year established a new record and defeated a number of teams before being finally put out of the running. This year it is hoped that the Ada team will win the district championship.

Besides this Mr. German will coach some plays and other forms of public speaking. Anytime speakers are needed for a community enterprise he will furnish them on request.

FOUR BALES OF COTTON BROUGHT TO ADA TODAY

Four bales of cotton had arrived in the city today up to 3 o'clock. The prevailing price received for it by the farmers was 24 cents.

Receipts for the season are reported to be eight bales. A considerable number is expected Saturday as quite a few are known to have begun picking during the past two or three days.

Secretary Williams of the Retailers reports that he raised \$61 for premiums for the first two bales.

FOUR MEN BOUND OVER ON ROFF BURGLARY CASE

Virgil, John and Boss Mardis and Charlie Simmons were bound over on a bond of \$1000 each in preliminary hearing before Justice H. J. Brown this afternoon on a charge of burglary in connection with the robbery of a store at Roff July 31. The defendants had not made bond at a late hour this afternoon.

ADA BANKS WILL BE CLOSED ON LABOR DAY

The banks of Ada will be closed all day Monday in observance of Labor Day, this being a holiday.

Carter Plans Order Of Anti-Klan Demos For Service in State

(By the Associated Press)
OKLAHOMA CITY, Aug. 29.—Frank Carter, chairman of the state corporation commission, announced today that an organization of the anti-klan Democrats to make an intensive drive against the Ku Klux Klan during the fall campaign would be perfected at a meeting here tomorrow afternoon.

"The political situation has simmered down to a klan and anti-klan fight," Carter declared. "Democrats are going to get busy and kill the klan and the klan issue. Then democracy will have a chance."

Carter said a speaker's bureau would be established for the campaign.

PROGRAM PLANNED FOR DEFENSE DAY

**Guard Officers to Foster Ob-
servance of National
Movement**

An extensive and fitting observance of National Defense Day on September 12, is planned locally by officers of the Oklahoma National Guard, in charge of the program for Ada.

The local observance will be under the charge of Lieut. Col. Byron Sledge, who will be assisted by ranking officers of the three local guard units.

Those in charge of the preparation for the observance expect to enlist 1,500 eligible men in the ranks of temporary military defense organizations to serve for the day only with uniform or without pay.

The observance here for the day will mark the temporary conversion of the guard units into organizations of federal defense and also the recruiting of these three organizations with others to full war time strength.

There will be a joint demonstration and parade of the war strength guard units with the other units formed through the one-day recruiting of eligible men locally.

In the observance, guard officers will seek the co-operation of reserve forces in addition to the recruits from the ranks of citizenship within military age limits. All former service men and men eligible for military service are expected to take part in the demonstration.

Following the parade and demonstration, the Ada troops will assemble at the Convention Hall where a patriotic program will be rendered.

According to one of the guard officers, who will be active in the plans for the Defense Day program, the observance is "not a mobilization for the purpose of creating a militaristic spirit nor sentiment. The purpose of the movement is to foster a spirit of patriotism and to acquaint the citizenship with the plans and workings of the National Defense Act. It is an effort on the part of the War Department to disseminate information from the office and hereby secure better co-operation and support."

The rate of the observance, September 12, is the sixth anniversary of the battle of St. Mehl, the first all-American major offensive.

Chamber of Commerce Leaders in Capital Seeking Industries

Roy Givens, president of the Chamber of Commerce and M. O. Matthews were in Oklahoma City Thursday in the interest of that civic body. Mr. Givens was working principally upon an industry which he hopes to land for Ada.

He also announces that the bridge across the river north of Ada will be completed by the middle of September, according to the statement of George Key, the builder. He is now at work on plans for holding a celebration soon after its completion.

BAPTIST PLEDGE FIGHT IN WALTON FOR STATEMENT

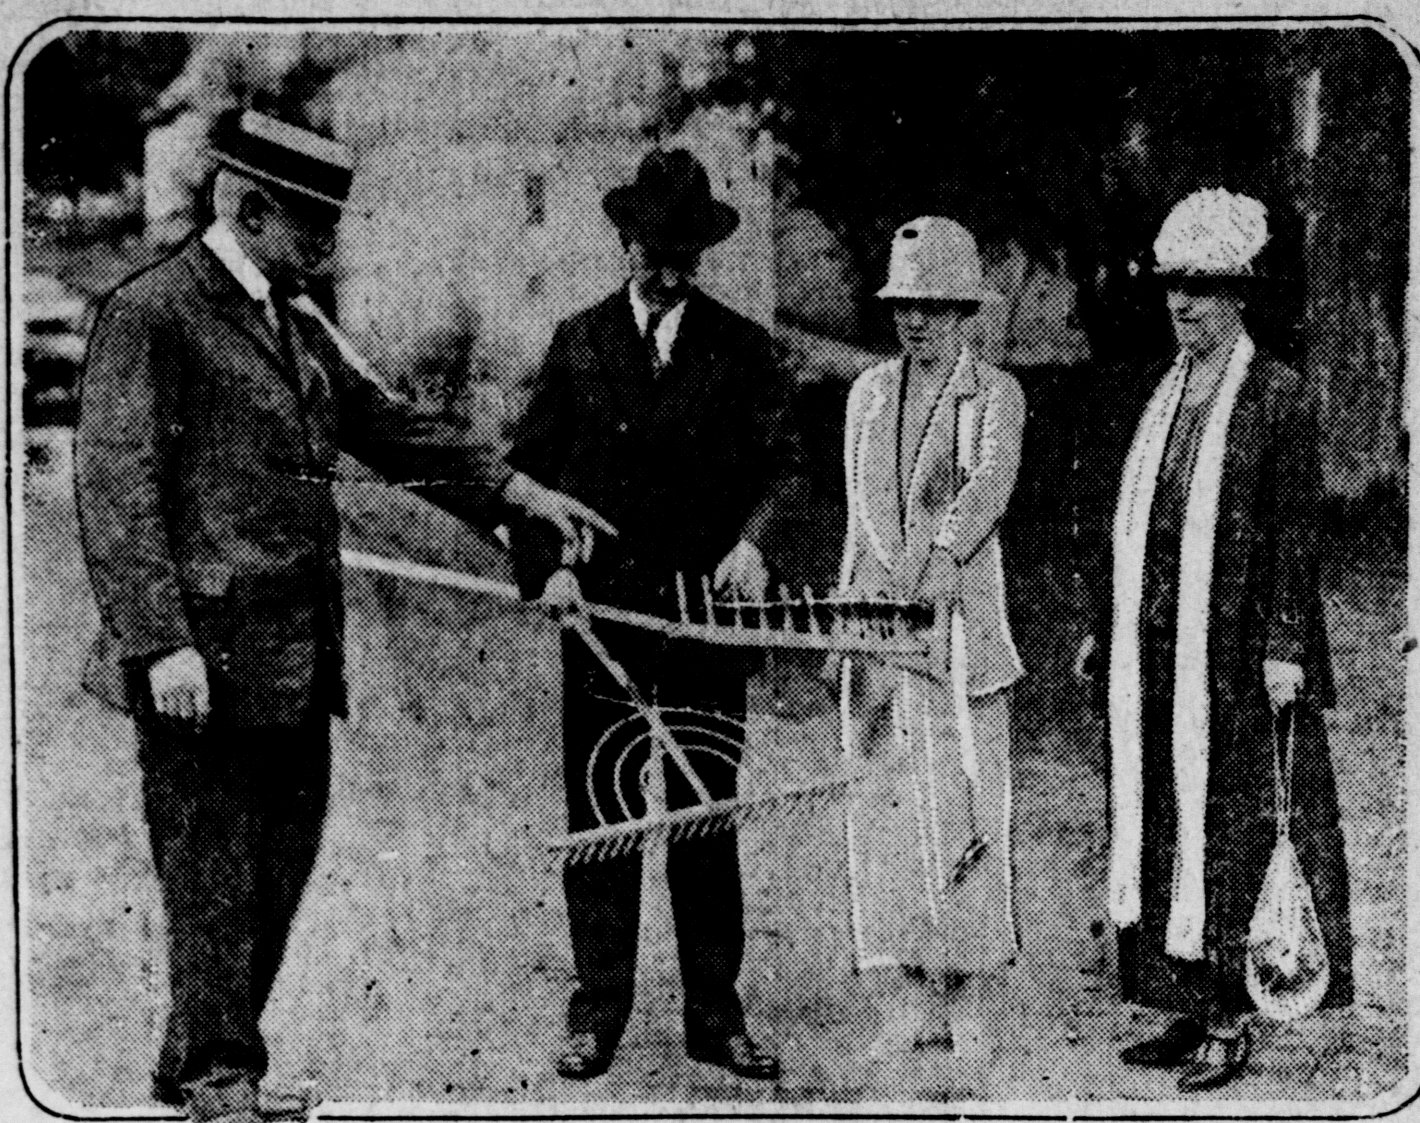

(By the Associated Press)
WILSON, Aug. 29.—Resolutions attacking J. C. Walton, Democratic candidate for the United States senate for his alleged statement that "95 percent of the ministers in Oklahoma are lower down than skunks" and pledging opposition to his election, were adopted by the Enon Baptist association in quarterly session here. About 5,000 Baptists in Carter and Love counties are represented at the meeting.

MORE THAN HUNDRED DEAD INDIA TRAIN COLLISION

(By the Associated Press)
LONDON, Aug. 29.—More than 100 persons were killed or injured in a collision of two passenger trains at Lahore, British India, according to an agency dispatch quoting incomplete reports from Lahore. Sixty-seven bodies were discovered in the wreck and it is believed that more than 20 remain undiscovered. Fifty-three persons were seriously injured and 49 slightly injured.

President Well Supplied With Hay Rakes

President Calvin Coolidge now has the means of raking all of the hay he desires while he is on his vacation at his father's farm in New Hampshire. When Representative Allen T. Treadwell (left), of Massachusetts went to call on Mr. and Mrs. Coolidge with Mrs. Treadwell (right), he took with him two rakes made for the president by Marshall W. Stedman of Tyringham, Mass., whose family for four generations have made rakes by hand.

WHEELER AT WAR ON PROBE AGAIN

**Prosecutor Renews His Fight
Against "Daugherty Gang"
In Public Office**

(By the Associated Press)
WASHINGTON, Aug. 29.—Senator Wheeler of Montana, prosecutor of the Daugherty committee and La Follette candidate for the vice-presidency, today publicly renewed his war on the "Daugherty gang" in public office.

In a formal statement Mr. Wheeler dealt at length with an affidavit said to have been made in the Atlanta federal penitentiary by George Remus, once Ohio's bootlegger king repudiating sensational testimony given last spring before the Daugherty committee.

"Testimony before the investigation," the senator's statement said, "disclosed that the present warden at the Atlanta penitentiary is a close friend and political associate of Harry M. Daugherty. The incident makes it clear that President Coolidge still has some house cleaning to do because some remnants of the Daugherty gang are still in office under the federal government."

According to information reaching Senator Wheeler and other members of the Daugherty committee, Remus' affidavit directly repudiated Remus' testimony that he had paid about \$250,000 to the late Jess Smith, Mr. Daugherty's companion for protection from prosecution. On the other hand, Remus said in his affidavit he never met Jess Smith or communicated with him directly or indirectly. Testimony to the contrary it is added, was given before the committee in the belief that it would aid him to secure his release from prison.

TWO OTHER PERSONS IN RONDOUT ROBBERY

(By the Associated Press)
CHICAGO, Aug. 29.—At least two other persons, whose arrest will take place shortly are involved in evidence obtained by postal inspectors who arrested William Fahy, Chicago inspector now in the Woodstock, Illinois, jail in default of \$50,000 bond on a warrant charging him with complicity in the \$2,000,000 Rondout, Illinois, mail robbery, according to C. H. Claranhan, chief inspector of New York.

He asserted the two suspects are not federal officers but participated in the planning of the robbery and in a division of the loot. Chief Claranhan reiterated his charge that Fahy was "in the conspiracy to rob the mail train from the very first."

Investigators plan to question further William J. Roberts, deputy United States marshal, held in technical custody in his office for his alleged part in assisting Mrs. Fahy to take a package of papers from her home. She is being sought, R. D. Simmons, chief postal inspector who came here from Washington to take charge of the case, said Roberts' answers so far have been evasive.

A correspondence course in geology of petroleum deposits has just been announced by the University of Chicago in its home-study department.

Tourists Now Flocking Home as Season Ends

The appealing call of pleasure and cutting resorts far and near is diminishing daily as the early days of fall begin to settle down over the city, calling for a revival of business and profession activity after a vacation during the summer.

Summer resort pilgrims with motor tourists are turning their steps homeward and every day trains unload numbers of Ada residents who have been absent from the city during the summer months.

Railroads announce that their last vacation excursions are under way and that early September will bring in all vacationists, who have been away on excursion trips to resort centers.

This year's quota of pleasure seekers has been made up to a great extent of motor caravans. Each year sees a greater number of automobiles start but on distant trips, instead of using the more dependable railroad travel. West Coast and Rocky mountain vacation havens have not been beyond the reach of the lowly Ford and a number of trips have been taken overland to Colorado and California this year.

Galveston and the Gulf resorts have been destinations for extended motor trips.

CAVERLY TO WEIGH COURT TESTIMONY

**Chicago Jurist to Spend
Twelve Days in Deliberation**

CHICAGO, Aug. 29.—In the retirement he will maintain for the next 12 days Judge John R. Caverly today began consideration of the sentence he will impose September 10, on Nathan Leopold Jr., and Richard Loeb confessed kidnapers and slayers of Robert Franks.

He has before him nearly 2,000 pages of the record of the 32 days of testimony and argument. In the judicial hearing which closed yesterday in which the state demanded the gallows and the defense pleaded for imprisonment, by a plea of mental sickness in mitigation.

In his private home within 10 miles of Chicago the judge will weigh the proceedings and prepare a written statement and reasons for the sentence he will pronounce.

Before he abandoned the bench he arranged to admit only the defendants, their relatives, counsel, state's attorneys and newspapermen to his court room when he fixed the fate of the youths. Police and deputies will exclude all others. This was not due to threatening letters received by the judge, which he attributed to cranks, but to prevent any demonstration.

He has requested other judges to not convene their courts until after the judgment has been passed.

Dawes at Lincoln
LINCOLN, Neb., Aug. 29.—Chas. G. Dawes arrived here today to open his western campaign in the city, where he began his career 37 years ago and in the home town of his Democratic opponent, Charles Bryan.

COOLIDGE TELLS MEETING OF AIMS

**Inform Fraternity Congress of
True Fundamentals of
Organizations**

WASHINGTON, Aug. 29.—Fraternity as a strong reliance of ordered government according to public law, was extolled by President Coolidge in an address to a delegation of representatives of the National Fraternity Congress.

"The rituals of nearly all fraternal organizations," Mr. Coolidge said, "are based on religion. No true fraternity can rest on any other basis. It is for this reason that our supporters of the true aims of society are a strong reliance of ordered government according to public law, able advocates of the cause of righteousness, religion and effective promotion of peace and good will among the nations of the earth."

WASHINGTON, Aug. 29.—President Coolidge returned to Washington at 7:00 o'clock this morning after a two weeks vacation on his father's farm near Plymouth, Vermont.

The President with Mrs. Coolidge and their son John left the train immediately for the White House where they had breakfast, after which he took up the chain of official duties. Beginning the day's work with a cabinet meeting, he later addressed the delegates attending the convention of the National Fraternity Congress. Thus the first vacation of the president since he has been in office, ended.

FIRST COLLEGE GRID GAME LATE IN OCTOBER

Ada gridiron fans will not see the Tiger crew of East Central in action until October 30, mid-season in the annual football schedule, according to the schedule of games for the year.

The first game played on the local field by the College eleven will be on home-coming day when Tahlequah invades the Tiger lair.

The squad goes to Phillips at Enid for the first game on October 10, follows next week with a trip to Edmond and then the following week to Shawnee where they tangle with the Bisons of Oklahoma Baptist university.

With the return of Coach Joe Milam today and with a flock of youngsters anxious to don the mole-skins, practice should get well underway early next week. Several of the Oklahoma Intercollegiate teams have been working out thru this week.

Athletic Director M. Z. Thompson is especially optimistic over the prospects for the coming gridiron season. Practically the entire 1923 machine will be ready for action in the initial game and a number of high school stars from over the district will be on hand.

OKLAHOMA CITY.—Fifty-six horses have been added to the Oklahoma national guard, raising the number of animals for draft and riding purposes to approximately 400, according to B. H. Markham, adjutant. The horses have been distributed among several artillery units, the adjutant added.

Man Held Here on False Pretense in Effort to Get Cash

Charges of false pretense will probably be filed tomorrow against Harry Garrett of Whitesboro, Tex., following his arrest Wednesday afternoon by local officers when he is alleged to have attempted to secure \$100 from the First National Bank on a telegraphic communication from a Whitesboro bank, according to County Attorney J. W. Dean.

According to Dean, Garrett wired a Whitesboro bank as Sam Acker requesting that that bank notify the First National bank here for a draft of \$100.

The alleged false representation was discovered by Whitesboro and the bank notified here of the identity of Garrett.

Garrett is being held in the county jail without bond.

BUSINESS MEN TO BANQUET WINNERS

**Blue Ribbon Holders From
Fair to be Guests of
Banquet**

The business men of Ada will give a luncheon at the County Fair the Blue Ribbons at the County Fair to be held here beginning September 10, according to plans laid at a meeting of the Retail Merchants Association this morning. The luncheon will be given on Saturday, September 13, at noon. The place will be announced later.

The merchants also agreed to decorate the city with flags and help make the fair the greatest yet. It will be held on East Main street, occupying the building at the corner of Main and Rennie and the wagon yards just east of Rennie. Every merchant is urged to display the flags each day during the fair.

J. C. Treadwell, secretary of the Chamber of Commerce, and J. E. Williams, secretary of the Retail Merchants Association, will see to getting transportation for the band to each of the township fairs next week. The band will consist of 25 or 30 pieces and will make each of the six township fairs.

The business men will get behind the fair in better spirit than ever before, according to the plans laid, and J. B. Hill, secretary, believes it is going to be a big affair.

Business and profession men will be urged to attend the township fairs, and it is expected that a dozen or more cars will leave Ada each morning next week and the Ada citizens will thus become better acquainted with what the county is doing agriculturally and all will profit thereby. The first trip will be made Monday when strings of cars will leave for Allen.

The luncheon is an entirely new venture. Tickets will be issued to the blue ribbon winners and the holders will be urged to be present on the last day of the fair. A short program will be held, but most of the time will be consumed in eating. All the blue ribbon winners will be invited regardless of the entry on which the ribbon is won.

City Stores Plan To Observe Labor Day Here Monday

The Retail Merchants Association members will close their stores next Monday, Labor Day, according to an announcement Friday morning. All those not members are expected to close also, and thus the city will honor labor.

The city stores for many years have made a practice of closing on Labor Day. Many from here will go to Allen to attend the township fair Monday. Others will go to Roff where a picnic is to be held, while others still plan on staying at home.

CARTER GLASS UNABLE TO ASSIST DEMOCRAT CAMPAIGN

(By the Associated Press)
LYNCHBURG, Va., Aug. 29.—United States Senator Carter Glass of Virginia will not be able to take an active part in the Democratic national campaign until he has recovered his "normal good health" after serious infection resulting in erysipelas from which he now is suffering has been "definitely ascertained and removed," his physician stated today.

Prisoner Kills Comrade.

(By the Associated Press)
MALESTER, Aug. 29.—Eugene Williams, life term negro prisoner, was killed at the state penitentiary last Thursday noon in a dispute with Robert Garberth also negro life term prisoner who stabbed him with a pitchfork.

Flight Postponed Again.

(By the Associated Press)
On Board U. S. Cruiser Richmond off Laborador Coast, Aug. 29.—Continuing stormy weather has caused further postponement of the American army world fliers here from Vigot, Greenland. It is now announced that no attempt will be made to get away before tomorrow morning.

ENGLISH VISITOR ARRIVES IN U. S. FOR POLO GAMES

**Prince of Wales Lands at Glen
Cove Harbor This
Afternoon**

PRINCE IS WELCOMED

**English Heir Greeted by
Masonic Fraternity on
Board Ship**

(By the Associated Press)
NEW YORK, Aug. 29.—Prince of Wales arrived on the liner Berengaria at quarantine, lower New York harbor, at 2:17 o'clock this afternoon. The Prince left the liner about an hour after arriving for Glen Cove, Long Island, on the yacht Black Watch.

On Board the Steamship Berengaria New York this afternoon on his garia. Aug. 29.—Due to arrive at second visit to the United States enroute to his ranch in Canada, the Prince of Wales spent this morning in final preparation for debarking. Last night he took a little time off and danced with Lady Mountbatten and Mrs. Richard Norton of his party. There were several distant spectators but no one came near.

Early this morning the prince took time to receive a deputation of brother Masons representing all members of the order on board the ship, the deputation which included two Americans greeted Wales as Past Senior Grand Warden of united grand lodge and as provincial grand master of Surrey.

His Royal Highness responded cordially and delighted two of the members by autographing their Masonic traveling certificates.

NEW YORK, Aug. 29.—The Prince of Wales will set foot on American soil this afternoon at Glen Cove, Long Island, where an extra shift of men have been working under electric lights to create a setting fit to welcome the heir to the British throne. The exact time of his arrival is unknown. It was reported that the Berengaria would arrive with its royal passenger at 2 o'clock this afternoon. Later this was shifted to 4 o'clock and it is possible that rough weather immediately out from Sandy Hook, may cause further delay.

Before landing the Berengaria will receive a message of welcome, broadcasted from an airplane flying above the liner. The plane is a DeHaviland machine of the army air service. It is piloted by Lieut. S. M. Connel, and Major William N. Hensley, Jr., commander of the Mitchell flight station will read from a printed manuscript into a broadcasting apparatus installed in the cockpit, official words of greeting from the federal government, the governor of New York and the mayor of New York City.

KIWANIS SEEM TO INCREASE PILGRIMAGE

A committee of Kiwanians has been actively engaged in increasing the strength of the motor caravan to represent the Ada civic organization at the district convention at Lawton, September 1 and 2.

At a recent meeting only eight pledged to make up the car van of Ada representatives at the district meet which will entertain Kiwanians from Oklahoma and Texas clubs.

This number was claimed insufficient by the club and a movement was started to interest others in the pilgrimage to Lawton. The committee in charge of enlarging the attendance at the convention told the route overland from Ada to Lawton and to furnish other data for the trip.

The regular meeting of the club will be cancelled next Monday on account of the convention at Lawton.

JIMMIE WALKUP SLATED TO PITCH FORTH WORTH GAME

Jimmie Walkup will take the mound for Fort Worth next Sunday in the Fort Worth-Wichita Falls series.

That's the answer to a number of queries from excursionists who plan to ride the special Frisco train to Fort Worth Saturday night.

Walkup has appeared on the local diamond in several games a few years ago.

Sheriffs Rushed to Scene

CARUTHERSVILLE, Mo., Aug. 29.—Twelve deputy sheriffs and other officers were rushed to Swifton Mo., today in response to a telephone call from Netherlands which said a mob of negroes were shooting at W. S. Swenney, a large land owner near Swifton. The origin of the trouble was unknown.

BIBLE THOUGHT FOR TODAY
O LORD, REVIVE THY WORK IN THE MIDST OF THE YEARS.—Habakkuk 3:2.

The Franks murder case is over at last with the exception of the final chapter, passing of sentence September 10. The chances are that the judge will impose a prison sentence just as he would have done in the beginning without a month of bickering among lawyers and so-called alienists. It is really disgusting to read of the conflicting testimony of these self-styled specialists. Each side paid large fees and got the line of testimony it wanted. It was enough to make the public skeptical of the whole tribe for although there is nothing new about such procedure, this time it was strongly emphasized. This testimony that is bought and paid for does not deserve much consideration but every time a criminal is cornered with no other defense left he turns to insanity and then we have testimony squarely contradictory, one set of alienists holding that the accused is insane and the other just as positive that he is a man of exceptionally clear intellect.

Today's dispatches indicates that the German reichstag will ratify the London agreement for putting the Dawes reparation plan into effect. This will be the greatest forward step towards real understanding among the powers since the signing of the treaty of Versailles. The world has been in a state of uncertainty and trade has been retarded because of the unrest due Germany's attitude in trying to escape the payment of damages to France and Belgium and the possibility of active French intervention. With these things removed and Germany at last realizing that she must meet her obligations the affairs of the world will be well enough stabilized to inspire confidence and the old trade relations resumed. The United States is vitally interested in several phases of the settlement and just now with the price of cotton hanging in the balance it is a prime importance to this section.

The Manufacturers Record wonders if the time is at hand when the Democratic party will compete with the Republican in trying to capture the negro vote. Really, there is some reason for this surmise. Thousands of negroes have migrated northward and now hold the balance of power in elections. Naturally both sides will want to secure this. The Carter county registration case indicates that even in Oklahoma the negro vote is being sought by men running on the Democratic ticket and even here in Ada many are registered as Democrats, whether they ever voted the ticket in the general election in their lives or not. In our early days in Texas before there was such a thing as a primary, the negro vote was usually controlled by a few leaders of their race and when an election rolled around these leaders picked up some easy money by delivering big blocks of votes to candidates.

The Association of Former Students of the A. and M. college of Texas recently adopted strong resolutions declaring in favor of putting studies in first place in importance and making athletics and social activities secondary matters. They were entirely right about it. The spirit of rivalry among schools in athletics has reached a point where in many of them athletics overshadow everything else. Interest centers around a winning football team rather than the literary curriculum, although a college or university is supposed to exist for the purpose of imparting knowledge. In some cases coaches are paid higher salaries than presidents of the same institutions. Athletics and social activities have their place in school life but are not entitled to first place.

We believe that there is plenty of pep in Ada, perhaps as much as at any time in her history, but that it needs to be brought out. The men who have been in the habit of taking the lead whenever there was anything to be done have had enough to discourage them, but they are not dead by a long shot. Then, too, it is time some of the younger ones began to take hold and carry part of the burden. It should be borne in mind that a boiler of water will not run a steam engine but when heat is applied and the water turned into steam, things begin to move.

The improved road from south of Lightning Ridge to Ada will be worth much both to the people of the community it traverses and to the city as well. Getting to Ada has been a hard matter heretofore, but with the road in fair shape the trip will not be such a job.

If a big crook is to be admired more than a little one, Postoffice Inspector Fahy, who had the reputation of being one of the aces of the service, is due a lot of applause, in case he is convicted of charges pending against him of having had a hand in the \$2,000,000 mail robbery in June. His price was a big one and he finally got it, if he was a participant in the division of the loot.

One cannot always judge the true character of a man by the front he puts up. The buzzard flies much higher than the quail or the mocking bird, but no one is inclined to say he outclasses the latter.

WHAT THEY SAY
Scenes on the St. Lawrence
Aug. 24, 1924.

Dear Byron:
I have started to write you several times as promised, but visiting and seeing interfered. Never in my life have I spent such a delightful month. The section is rich in history and the scenery cannot be excelled or properly described. Two days stand out in the visit which appealed to me.

About a week ago we drove to St. Riga. It is an Indian reservation, one of the oldest in America. As I stood on the Catholic church porch a world of historical memories crowded my mind. Looking into the ancient church, built over a century and a half ago, I saw the framed wax figure of the Christ, sent from France as a gift to her children in America. The toll of the bell startled me, as I remembered that legend claimed the bell had been brought to St. Riga over land during the winter from Deerfield, Mass. A legend probably not true. Looking north were the waters of the St. Lawrence, one of the most beautiful streams of the world. What a world of memories clustered around that river! History runs riot with scenes and incidents of both American and Canadian nationality.

Turning around I looked at the Parish residence. Legend again claims that, in very early life, the Dauphin of France lived there. Secretly he had been sent to St. Riga from France, that another branch of the House of Bourbon might reign. I recalled that later he became an Episcopal minister, and legend states went under the name of Elzevir Williams.

However the scenes and the hour were pregnant with thoughts of the past. Sunday we left Malone about 1 p. m., ostensibly for a trip through lower Quebec. The day was ideal. We motored to Valley Field on the banks of the St. Lawrence. This city of about 25,000 has long been noted as headquarters of rum runners. A large brewery is in operation and a cotton mill that employs 5,000 people. Recently it figured in the celebrated murder case of the young man Muir, who was executed there.

The thought of greatest moment to me was, why does not Oklahoma manufacture her own cotton into cloth, instead of shipping the raw material to this distant place? The manufactured product goes back to us from here with evidently profits added by railroads, manufacturers, jobbers, etc.

Returning from Valley Field we passed the Windsor Hotel, saw the jail where Muir suffered for his crime, despite the efforts of United States officials and the Privy Council. The fact was forcibly brought to my mind that crime is punished in Canada. Another striking condition was apparent: In Canada the farming industry was far better than the adjoining section in the states. Beautiful homes, large barns, well kept, and large dairies showed a contented and prosperous life.

Tomorrow we will go to Saranac Lake and Lake Titus for a brief visit.

Very kindest regards to all friends.

E. A. MacMILLAN.

TO RECRUIT 1000 MEN DEFENSE DAY

Okmulgee Plans to Observe Defense Day Aims; to Be Volunteers

OKMULGEE.—Defense Day, September 12, will see a gigantic effort made by the citizens' committee and the commanders of national guard and reserve corps units to recruit, for the day only, approximately 1,000 men.

That number is required to bring to war strength the eight units that have headquarters in Okmulgee. All men who, on that occasion, will volunteer for a day will be assigned by a regular assignment board to the various units.

The names of "volunteers" will not even be sent to the war department so that not only will no obligation be incurred but only the local men will know the names of the volunteers for a day.

But that's the big purpose of Uncle Sam's Defense Day, to determine just how many men can be mustered into the skeleton organization on an hour's notice, to see just how many in the United States between the ages of 18 to 45 years are ready to go at a moment's notice.

Under the national defense act of 1920, every male citizen of the United States between 18 and 45 years of age, if he does not belong to the army, the national guard or the reserve corps, is a member of the "unorganized reserves." The response of these unorganized reserves will be the test made on this day, though the preparedness of the organized reserves will also be under test.

Parade to Be Held
The general committee in charge met last night in the office of Mayor W. C. McAdoo. At that meeting it was determined that the only formality of the day, other than the recruiting for a paper organization for that occasion only, will be a parade.

Every "recruit" will be tagged, as signed to one of the eight units here and all who can possibly be present will be urged to participate in a big parade in which the school children, all civic clubs, lodges and churches and the citizens generally will also take part.

By use of the tags the committee felt that the general public will get a better idea of just who is participating in Uncle Sam's supreme effort to take stock of his defensive strength.

Reserve officers present at the committee meeting last night, declared that foreign countries are watching this movement of the United States skeptically, believing that it cannot be done. Some, even in the United States, believe it can not be, they said.

Speakers named by the committee that met last night will go to every civic club, church, lodge and school in Okmulgee between now and September 12, outlining the purposes and the details of the Defense Day plans and urging the fullest co-operation.

September 12 is a legal holiday, so declared by the president in accordance with authority conferred upon him by the national defense act of 1920.

The eight units of the national guard and reserves in Okmulgee to which the volunteers for a day will be assigned on paper and in the parade are, with their commanding officers: Company E, 179th Infantry, Captain B. G. Patton; Headquarters Company, Third Battalion, 179th Infantry, Lt. J. N. Nixon; Company H, (M. G.) 378th Infantry, Captain Clyde H. Dorr; Headquarters Company, Second Battalion, 387th Infantry, assigned commander; 474th Attack Squadron, Air Service, Lt. William A. Burke; 329 Engineers, Captain Watson Joyce; Combat Train, 529th Anti-Aircraft Artillery, Captain Richard Battle; 356th Motorcycle Company, Lt. William M. Maher.

Baltic Fish Growing Smaller.
DANZIG.—Baltic Sea fishermen declare that the fish of these waters are becoming smaller. It has been particularly among the herring and other fish caught this summer for the German and Baltic states markets. Scientists have begun an investigation to ascertain the cause of the shrinkage in size.

ruined

Many a first impression has been ruined by some seemingly little thing
It pays in life to be able to make people like you. And so often it is some seemingly very little thing that may hold you back.
For example, if a person's teeth are unclean, you will automatically hold this against him. And all the while this same analysis is being made of you.
Listerine Tooth Paste cleans teeth a new way. At last our chemists have discovered a polishing ingredient that really cleans without scratching the enamel—a difficult problem finally solved.
A large tube of Listerine Tooth Paste is only 25 cents; at your drugist's.—Lambert Pharmacal Co., Saint Louis, U. S. A.

ITCHY!

MONEY BACK WITHOUT QUESTION
"HUNT'S GUARANTEED SKIN DISEASE REMEDIES" (Hunt's Salve and Soap) fails in the treatment of Itch your druggist is fully authorized to return to you the purchase price. A Medford, Oklahoma man, among thousands who praise HUNT'S SALVE, says:
"Some people dislike to call it the Itch, but candor compels me to admit I had it badly. Your Hunt's Salve, however, cured me after many other remedies had totally failed."
"HUNT'S GUARANTEED SKIN DISEASE REMEDIES" (Hunt's Salve and Soap) are especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter and other itching skin diseases, and is sold on our money-back guarantee by all reliable drug stores.
Remember, if it fails it costs you nothing, so give it a trial at our risk.

WHOLE FAMILY ENDORSE TANLAC AS BEST TONIC

Tanlac has been our constant friend for years, and my wife and myself and eight children are all enjoying wonderful health, largely due to this medicine. It is the remarkable statement of Harry H. Pistole, 310 Archer St., Waco, Texas.
"In my own case Tanlac has done what seemed to be impossible. When I began taking it my stomach was in such a bad fix that I had to live on a milk and egg diet and I was almost a skeleton, I had been flat of my back in bed and under treatment for 18 months and felt that my time was about up.
"After my case had been given up as hopeless and I thought I was beyond redemption a relative put me on to Tanlac, and the result is, I gained 20 pounds, and enjoy as good health as anybody could wish.
"My wife was all broken down in health. But now she weighs 155 pounds, and is strong and well and I am giving Tanlac credit for it. We give Tanlac to the children to tone them up and make them grow, and nobody ever had a healthier set of children than we have.
"Tanlac is certainly the greatest medicine on earth for anyone whose life is wrecked by bad health. We sure do have a great deal to praise Tanlac for at my house."
Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.
Tanlac Vegetable Pills, for constipation made and recommended by the manufacturers of TANLAC.

POPULAR TEACHER GOES TO SCHOOL IN ARIZONA

Ada suffers another loss, while Glendale, Arizona is declared the winner. Prof. D. T. Bradshaw has been connected with the high school for the past eight years; he is, possibly, the oldest teacher in point of service, in the Ada school system. He will be missed not only in the institution where he has been so long, but by the different civic organizations.

It was through Mr. Bradshaw that the Boy Scout movement in Ada was launched. He organized the first troop in Pontotoc county and has been a constant worker in this field since its organization.

The Presbyterian church will miss the service that has been rendered by Mr. Bradshaw for these many years. At present he is teaching the high school class of boys and girls, which attendance is the best in the Sunday school.

Mr. Bradshaw is well qualified for the work that he is to take up. He holds a Bachelor's degree from Davidson college, North Carolina, and has done graduate work in the University of the same state; Stout Institute, Wisconsin; A. & M. college of this state and East Central College.

Soviet Bars Field Glasses
BERLIN.—Tourists' field glasses are military equipment and dangerous to Russia's safety when owned by foreigners, in the opinion of Soviet custom-officers. Their importation is forbidden and consequently they are seized at the border is the report of a German citizen, recently returned from Russia minus a new and expensive prism-binoche.

City Briefs

Dick Williams has returned from his vacation in points in Colorado.

Jim Pendleton and family of Theila, Texas, are visiting Mr. and Mrs. U. C. Dixon and Frank Palmore.

Mrs. L. R. Clark returned today from an extended visit to points in Kansas.

Mrs. Date Crawford and Mrs. Mayfield of Stonewall were shopping in Ada Thursday.

We drain and wash your crank case free. Three Square Deal Service and Filling Station. 10-3-1f

McCarthy Bros. can fix that old tire or tube. Phone 855, 116-118 South Townsend. 5-23-1f

Miss Eddie Mae Horn left today for Holdenville where she will teach the coming year.

C. D. Price and his cousin, Mary Price, motored to Stonewall today on business.

Mrs. Joe Emmanuel has returned from her summer vacation with relatives in Wisconsin.

Hats cleaned and reblocked.—Miller Bros. Cleaners. Phone 422. 8-1-m

Mr. and Mrs. A. A. Lucas have returned from a months vacation spent in California. They made the trip in their automobile.

Mr. and Mrs. Omer Jumper of Allen are rejoicing over the arrival of a daughter, which arrived at the Ada hospital Thursday.

Furniture repair, we do all kinds. Phone 1195. Jackson Furniture Co. 817-1m

Dorothy Barringer, daughter of Mr. and Mrs. Walter Barringer of South Broadway, returned yesterday from a ten days visit to Ladonia and Wolfe City, Texas. She accompanied Frank Meaders and family.

Miss Stella Watson, member of the college faculty, is now in Berkeley, California, to attend the University of that state. She writes friends that she is delightfully situated where she can get a view of San Francisco and the Golden Gate at any hour of the day, provided the fog does not interfere. Mr. and Mrs. J. O. Wood are also in Berkeley.

OKLAHOMA CITY.—Under the new state highway law maintenance of designated state highways is under the jurisdiction of the state highway commission, leaving the county commissioners free to build and maintain secondary roads in their counties, according to E. Bee Guthrey, secretary of the highway commission.

At present there are 4,100 miles of highway in almost every county of the state under the maintenance supervision of the commission, Guthrey said. Before the end of the year this will be increased to 6,000 miles, he said. While many county commissioners, at first, resented the apparent state interference with county affairs, they have been reduced as they gained a knowledge of the operation of the new law, Guthrey said.

Machine Discovers Coal and Oil. (By the Associated Press)

BOCHUM.—Ability to determine the exact location of coal and oil underground by means of an improved seismograph, registering detonations is claimed by Dr. Mintrop of this city. According to Dutch newspaper reports the invention was tried out successfully in Holland.

Dr. Mintrop now is travelling in the United States.

It will require at least 37,000 hands to harvest Western Canada's wheat fields this year. Last year 65,000 harvesters were employed.

BUCK GARRETT ON OPEN COURT BOND

Defense Attorney Asks Petitions be Made More Definite

ARDMORE.—Buck Garrett was placed under an open bond to pay all of the costs in the current election contest case when hearing was started in district court this morning by Judge W. F. Freeman.

This action followed a motion to strike the motion for dismissal of the case by the defense. The motion was granted by the court.

Two other motions were filed, one asking that certain parts of the original petition be stricken, and the other requesting that the original petition be made more definite and specific.

On request of attorneys for the plaintiff, the case was continued until Friday morning at 9 o'clock.

Wants to Be Fair.
At the outset of the hearing Judge Freeman let it be known that he would extend courtesies to both sides and that every move would be deliberate so that it could not be charged that favoritism was shown.

"At the same time I know that you want this case completed as soon as possible," he said addressing the attorneys. "I want it finished, too, and for that reason I'm asking you to expedite matters as much as possible."

Fixes Garrett's Bond.
When the petition requesting that Garrett be placed under bond to pay all the costs of the case had been discussed, Judge Freeman ruled that "since the financial ability of Mr. Garrett is known and we believe he will pay the costs" he would not require bond.

It was then that Jess Lasley, court clerk, informed the court that there was then no money on deposit to cover the costs.

Rescinded Ruling.
Judge Freeman rescinded his first ruling and stated that the plaintiff would be placed under an "open bond" which would cover all costs which would accrue in the course of the hearing.

In making his first ruling Judge Freeman said that if Garrett showed any disposition to fail to pay the costs, the case would be dismissed to the damage of the plaintiff. "It isn't fair that the taxpayers of the county pay the cost of this suit," he explained.

Make More Definite.
Judge Rutherford Brett then presented a petition to make the allegations in the original petition more definite. Six clauses of the petition were cited.

MURRAY COUNTY MAN COLLECTOR OF PAPERS

SULPHUR.—A collection of old newspapers, yellowed by age but believed to be one of the most valuable in the country is the property of C. Ruggles, who lives south of Sulphur on route 2.

A religious work "Epistulae of Cyprianus," said to have been published in 1483, is the oldest of Mr. Ruggles' collection. It was purchased from a library of antiques valued at \$18,000,000.

Practically every interesting event in the early history of the United States is covered by news items in the original papers owned by Ruggles. He also has some English newspapers that are valuable for their historic importance. Among these are the "Weekly News" of London, printed January 31, 1606; the "London Journal" of April 15, 1721; "The London Gazette" of April 19, 1686; "The Tatler" of March 14, 1709; "The British Apollo" of Jan. 19, 1708; "Master Mercury," Sept. 7, 1704; and "The Sun" of Jan. 12, 1802.

Some of the original copies of American newspapers in the collection are the "Boston Gazette" of March 12, 1770; "General Evening Post" (Boston), October 12, 1775; the "Pennsylvania Gazette," March 5, 1750; and the New Orleans "Daily Picayune" of December 29, 1843.

If you don't believe people still eat, stick your nose into a cheap picture show and sniff.

CHICKASHA CLAIMS BIG SUPPLY OF FUEL GAS

(By the Associated Press)

CHICKASHA, Okla., Aug. 28.—Although 20,000,000 cubic feet of gas is taken from the Chickasha field near here daily, the consumption is less than one percent of the possible production of the wells.

Less than two years old, the field is believed to be the largest in the world, surpassing the Pennsylvania fields and the Amarillo, Texas, field, government statistics show, according to the local chamber of commerce.

Geologists have informed Chickasha business men's organizations that the field is good for 200 years supply. According to them the gas is obtained from five sands, a geological phenomenon unknown elsewhere in the world. At present there are 52 completed wells in the field, but can supply the territory.

Business interests here are organizing to induce industrial plants to locate at Chickasha, stressing the abundance of fuel at the doors of the city.

OKLAHOMA CITY, Okla., Aug. 28.—Grady county gas fields, near Chickasha, are by far the largest producers in the Southwest, and recent national statistics indicate they are the largest in the United States, according to Fay Connor, chief conservation officer of the state corporation commission.

At the present time one percent of the possible production is being taken from the wells, Connor said. The state law permits the removal of 25 percent of the well's capacity.

LOVE BALKS WITH FERGUSON RACE

Veteran Committeeman Says
He Won't Support "Ma" In Race

DALLAS, Tex., Aug. 29.—Announcement that he would not support the candidacy of Mrs. Miriam A. Ferguson of Temple for the governorship of Texas, and that he had forwarded his resignation as democratic national executive committeeman for Texas to Clem L. Shaver, the national chairman, was made by B. Love of Dallas, Love was elected national committeeman at the state democratic convention held in Waco recently.

This information was contained in a lengthy statement prepared by Love in which he outlines his long political career and explains his decision to withdraw from the leadership of the Democratic party in Texas, an office which he has held for five years and to which he has just been elected for an additional four-year term.

Is for Davis and Bryan.
Love, though denying his support to Mrs. Ferguson, "earnestly and wholeheartedly" indorses the national candidacy of John W. Davis and Governor Charles W. Bryan for president and vice president. He asserts also that he will support each and every candidate upon the democratic state, congressional and local tickets, except the candidacy of Mrs. Ferguson.

"As a matter of law, I do not believe the democratic nominee (Mrs. Ferguson) is eligible under our constitution, but regardless of that I cannot escape the conviction that it is the duty of every good citizen, regardless of all considerations of party regularity and of all other considerations, to leave nothing undone that legitimately may be done to prevent the restoration of Fergusonism to power in the state capital at Austin," the statement declared.

Has Served Long Years.
"For thirty-five years I have served the democratic party and so far as receiving or seeking material gain is concerned, I have served it unselfishly," he declares, and continues:

"In all that time I have never placed a pencil mark upon a democratic ballot that I have never hesitated to make any sacrifice within my power to promote party success. I have always put country before party." * * * But if I placed party welfare above the public good, even from that viewpoint, I would not hesitate for a moment to follow the course I have determined upon in this campaign, for I am sure that Texas democrats can render no more effective party service than by fighting Fergusonism to the death, even as our national standard bearer is fighting Fallism to the death."

After commenting upon his support of and belief in the national ticket, he continues "for governor I earnestly hope to be able to support an independent democrat whose character and known capacities and disposition for public service will attract the support of each citizen of Texas, who is opposed to all that Fergusonism stands for, regardless of party or creed, and whose opposition to the Ku Klux Klan is wholly beyond question, so that that issue will not longer complicate the situation."

In commenting upon the K. K. K. he declares that this issue was forever removed from Texas politics by the primary of August 23, and asserts, "while I have outspokenly opposed the Klan from the beginning, my own belief has been that Fergusonism was ten times a greater menace than Ku Kluxism."

The Tree-Slimbers' club, the members of which spend their holidays climbing the tallest trees they can find has been organized in Goddard, Surrey, England.

Green Heavy Winner In Race for Mayor Of City of Sulphur

SULPHUR.—Robert C. Green was nominated mayor of Sulphur Tuesday by a total of 651 votes to 350 cast for John W. Stevenson, his only opponent. He was endorsed by the Chamber of Commerce, of which organization he has been president for the past year.

Early in the day Green's triumph became certain when local business men, working in his behalf, brought scores of voters to the polls. His lead in both wards was substantial.

W. D. Biggerstaff and P. B. Henry were chosen commissioners in Ward 1. Ira Pores and L. H. Frier were high men in Ward 2.

A bill to prohibit the teaching of the theory of evolution in the public schools of the state is under consideration in the legislature of Georgia.

English Styles

Are the Smart One for Fall, 1924

A season ago style changes were "in progress"—one could sense the tendency without being positive that it would develop—today, however, the English, full model, is the accepted and correct style standard.

The styles this season are the ones most favored by American College men—and back of them all one will find the pace set by the smartest of English dressers.

And again, it is not necessary to pay high prices for the correct, for one will find here the adopted new colorings and embodiment of styles at very nominal prices—

West Africa Gives Up Yams and Takes to Wheat Bread

WASHINGTON.—Natives of British and French West Africa are rapidly adopting wheat bread made of wheat flour as a regular item of diet, and agriculture department officials foresee an increased trade in flour with that territory.

The growing demand for wheat flour is the result of laborers being recruited from the interior for service in the seaport towns where, according to American Consul W. J. Yerby, at Dakar, Senegal, it is quite common for these laborers to make a meal of a loaf of bread and a tin of water. Baker's bread is replacing millet mush and rice in Senegal and Gambia. Consul Yerby reports, cassava and manioc dumplings and rice in French Guinea, Sierra Leone, and Liberia, and Maize and yams in the Ivory Coast, Gold Coast, Dahomey, and Nigeria.

Thirty years ago imports of wheat flour into that part of Africa were almost negligible, the small quantities received being used by a few traders and government officials.

RUMANIA CONTROL OF SECTS PROBED

Church Sects Control Investigation by Delegation Under Way

(By the Associated Press)
BUCHAREST, Aug. 29.—Considerable interest is being displayed in the present visit to Rumania of the Anglo-American delegation for the study of the condition of the minority churches of Transylvania. The delegation is composed of four members, and includes Dr. L. C. Cornish of Boston, secretary of the American Unitarian Association; Dr. Charles Schaeffer, of Philadelphia, of the Reformed Church of the United States; Dr. Sylvester Beach, of Princeton, of the Association of Presbyterian churches; and the Rev. Dr. A. S. Hurn, of Leicester, England, of the British and Foreign Unitarian Association.

The members of the delegation, after some preparatory study as was possible in Bucharest, have traveled more than 1,000 miles in Transylvania, and held conferences in different parts of the province, going freely and unaccompanied from place to place in pursuit of their investigation, and sparing no effort to arrive at the true condition of affairs in respect to the attitude of the Rumanian government towards the so-called minority churches.

In an address a few days ago, returning thanks to the officials of the Rumanian government for their readiness in answering questions and in supplying such data as the delegates asked for in order to give them an insight into the government's attitude and policies towards the religious minorities, Dr. Hurn said:

"We are of the opinion that conditions have improved during the past two years. We understand the enormous difficulties of this problem, a problem complex of religion and race. I cannot say that we are fully satisfied with the conditions—as we found them—of the minority churches, but it seems to us that the Rumanian government wants to satisfy all reasonable and just demands."

The commission has announced that it will prepare a joint and complete preliminary report of its investigations, in which will be set forth in detail all cases of alleged abuses that were brought to its attention. The government will then be given ample opportunity to refute or explain any charges that may be brought and, following this, the final report of the commission will be published in Great Britain and the United States.

This report should be extremely valuable from two angles. It will probably lead, or at least help in leading, to the redress of such abuse of power as may at present exist, and at the same time, provide the outside world with a complete and unbiased report on the condition of the minority races and religions in the province of Transylvania.

Postal Service Men to Meet.
(By the Associated Press)
MINNEAPOLIS, Minn., Aug. 29.—More postoffice employees than gathered before in one assembly are expected here when the annual conventions of postal supervisors and postoffice clerks meet Sept. 9, to be followed Sept. 15 by the convention of the National Federation of Rural Letter Carriers, which is affiliated with the federation of labor.

Pointing the way to requested increases in wages for postal employees a comparison will be made in the conventions, it is said, calling attention to the difference in parcel post tariffs and express charges.

Million Persons Ill Daily Through Health Carelessness

THE alarming increase in infectious diseases throughout the country has stirred national, state and municipal health authorities to extraordinary activity to stem the tide of sickness and remove the causes of death. The officials seeking to prevent this wide spread of illness are calling upon the public to aid them in their fight, because most of the disease now rampant is

due mainly to public carelessness or neglect of ordinary precautions. In the opinion of Dr. Herman N. Punderson, Commissioner of Health in Chicago, there are on an average 3,000,000 persons ill all the time. He says that forty-two per cent of this illness is preventable, which means that every day there are over a million men, women or children shut in and suffering when they could be healthy and happy had they applied personal sanitary measures.

The recent announcement of the United States Public Health Service that smallpox has had outbreaks in thirty-five States has called attention to the fact that most of the cases of this disease are carried from one city to another and from one State to another by sufferers who fail to take proper protective measures.

It has been found that much of the communication of diseases is due to carelessness in the use of drinking vessels. An investigation in Chicago, reported to the General Health Bureau, gave the results of analysis of twenty common cups or glasses. Nine were taken from schools, three from hotels, five from railroad depots, two from stores, and one from a children's home.

All of these revealed the presence of germs to a dangerous degree. It was evident that these glasses carried virus that would spread pneumonia, diphtheria, influenza and other general and contagious diseases. The Chicago bacteriologist infected guinea pigs

with the germs so obtained. Five developed abscesses, six became very ill and two died, one of a pus infection and the other of typical diphtheria.

"It need hardly be said," concluded the report, "that the Commissioner of Health is heartily in favor of single-use drinking cups and that their value from a sanitary standpoint is beyond question."

Dr. Frank J. Monaghan, Commissioner of Health in New York City, says:

"When any one ill from an infectious disease drinks ice cream soda or any other drink at a public place, his saliva touches the glass. This glass if not properly cleansed will transfer the saliva and the germs through the drink served the next person. Thus, it does not demand any imaginative process to understand how the common drinking glass spreads infectious diseases."

"Avoid using the common drinking cup," he advises. "When you stop for a glass of ice cream soda or any other drink at a fountain where you can see how the glasses are cleaned, do not give your order if the cleansing is not properly done. At all public places, drinking glasses should be sterilized by being washed in hot soda solution, and then rinsed in hot water. If this process is not used, then paper drinking cups should be used."

The common drinking cup, as pointed out in Bulletin No. 57 of the United States Public Health Service, when improperly washed between users is largely responsible for the communication of: tuberculosis, pneumonia, typhoid fever, scarlet fever, diphtheria, tonsillitis, influenza, measles, infantile paralysis and colds.

Dr. Charles V. Chapin, of Providence, R. I., one of the most noted sanitarians of the country, says: "Indirect contact is far more important than direct. Perhaps the use of a common glass for drinking is the best example of a mode of indirect contact. It was also the first which the public learned to appreciate and avoid. The common drinking glass is going, out unfortunately has by no means gone. Even if the Board of Health neglects to enforce the law against it, no one need use it. That is within one's absolute control."

There are many persons who will not water a horse at a public fountain for fear of glanders who will themselves drink out of anything."

Because of the agency of the common glass in the spread of the diseases that now are taking their toll in sickness and death the local health authorities are directing their first steps toward the detection of those violating the law forbidding its use.

Forty-four States have such laws, and these are supplemented in many cases by municipal ordinances. Because of the great number of public places, soda fountains, schools, railroad stations, theatres, hotels, restaurants and other places where these are used, it generally is impossible to cover the whole territory except at long intervals. For this reason most of the health boards are asking the public to aid them in their campaign by reporting such violations as come to their notice.

It is hoped through this means to remove the peril that lies in the path of children who are the young to discriminate or care, or adults who are thoughtless or neglectful of the comfort and health of others. Many civic organizations, such as the Parent-Teacher Association, settlement houses, chambers of commerce and other groups are working with health officials to eradicate the menace to health.

The application of united effort to this step, it is believed, will heavily reduce the illness that now needlessly claims one million persons each day.

There are many persons who will not water a horse at a public fountain for fear of glanders who will themselves drink out of anything."

There are many persons who will not water a horse at a public fountain for fear of glanders who will themselves drink out of anything."

It is hoped through this means to remove the peril that lies in the path of children who are the young to discriminate or care, or adults who are thoughtless or neglectful of the comfort and health of others. Many civic organizations, such as the Parent-Teacher Association, settlement houses, chambers of commerce and other groups are working with health officials to eradicate the menace to health.

The application of united effort to this step, it is believed, will heavily reduce the illness that now needlessly claims one million persons each day.

RACQUET STARS TO COMPETE IN MEET

Net Men From Half Dozen States Entered in State Tourney

(By the Associated Press)
OKLAHOMA CITY, Aug. 29.—Tennis stars from half a dozen states will compete in the Oklahoma state tennis tournament which opens here September 8, continuing until September 13.

Racquet devotees, both men and women, from Texas, Arkansas, Missouri, Kansas and Colorado, will attempt to wrest the titles away from a large field of Oklahomans, according to authorities of the Oklahoma City Tennis Club, under whose auspices the tournament will be held. The meet is sanctioned by the American Tennis Association.

Attempts were made to bring William Tilden, national champion, Vincent Richards, Olympic champion and Miss Helen Wills, national and Olympic champion, to Oklahoma City but bookings in eastern tournaments prevented their consideration of entering the Oklahoma meet, the local club was advised.

Louis Thalheimer and Lewis White, Texas, holders of the national intercollegiate doubles title are expected to threaten the supremacy of Ben and Kirke Parks, Oklahoma City brothers, who now hold the state doubles title. The sensational Texas youngsters are said to be among the best young players of the country. Thalheimer at 18 was the state singles champion of Texas defeating White, also 18 for the title three years ago. Both now are seniors at the University of Texas.

Laven Jester, Bradley Hogue and John Barr, other Texas stars have indicated they will enter the Oklahoma tournament. The Parks brothers cornered the state titles last year, Ben winning the singles crown after taking the doubles finals with Kirke. James Beattie, winner of the Oklahoma City singles title from Ben Parks this year, who has been competing in tournaments throughout the Middle West during the summer, is regarded by critics as Parks most dangerous challenger. Claude Monett and Paul Darrough, former University of Oklahoma stars and William Luther of Tulsa are other Oklahomans who may wrest the crown from Parks.

Singles and doubles matches for women also will be played. It is expected that 200 men and women will enter the tournament which will be played upon the concrete courts of the Oklahoma City Tennis Club.

War Strength of Russia.
(By the Associated Press)
MOSCOW.—According to Leon Trotsky, commissar for war, the present strength of the Bolshevik army and navy is just under 600,000. The leader of the Red Army denied a statement made by the British war secretary that Russia now has a permanent army of 1,300,000.

WHY "THE BREAKING POINT"?

MR. BRENON EXPLAINS TITLE
When the mind is taxed to "The Breaking Point," one of two things must happen, according to Herbert Brenon who produced Mary Roberts Rinehart's novel of that name as his latest production for Paramount.

"Suicide is one way," and the other is nature's own way of taking care of the mind. It is a brain revelation that drives all memory of what caused the trouble back into the sub-conscious mind and keeps it there.

In "The Breaking Point," Matt Moore plays the role of a man whose mind gives way when he thinks he has become a murderer. When he recovers his poise, the memory of the murder is lost in the depths of his subconscious mind where it remains for ten years. Only the sight of his former associates, who lead him step by step through the events which led up to the murder, is sufficient to shock him into complete consciousness of the things which caused his mental collapse.

Nita Naldi, Patsy Ruth Miller and George Fawcett are featured with Matt Moore in "The Breaking Point" today and Saturday at the McSwain theatre.

INVESTIGATION OF INDIAN AFFAIRS TO BE POSTPONED

(By the Associated Press)
MUSKOGEE, Aug. 29.—Although there is immediate need for investigation of Indian affairs in Oklahoma particularly the growing tendency of county courts to declare Indian youths incompetent to manage their affairs, the Congressional investigation, ordered by the last Congress, has been postponed from September 8 to 26, according to S. P. Wallen, superintendent of the Five Civilized tribes.

Designing persons, particularly unscrupulous attorneys, obtain "fat" fees as administrators of estates of Indians, suddenly made wealthy through oil and declared incompetent by county courts, Wallen said. The practice has become so general, and has increased at such an alarming rate, as to constitute a state scandal, the superintendent declared. He predicted the congressional probe would reveal startling conditions.

OKLAHOMA CITY, Aug. 29.—Fully one-half of the civil suits appealed from county and district courts to the state supreme court concern the disposal of Indian estates, or the settlement of administrative affairs, according to the records of the appellate court. Almost without exception the Indian cases involve the ownership of land or the administration of land, bearing oil or in productive territory.

During one week last spring 90 cases were appealed to the supreme court and of that number 50 were to settle the titles of Indian oil lands, to establish administrators' fees or to declare Indian owners incompetent, the records show.

WALTER P. CHRYSLER'S TRAFFIC TALKS

TRAFFIC IN EUROPE
In Switzerland some places have a speed limit of only 3 miles an hour. The general limit is 19 miles.

In Belgium a motor car may be equipped with a large bell, instead of a horn.

In Sweden one keeps to the left. In some parts of Norway the rule of the road is keep to the left and in others keep to the right. The same is true of Italy.

When motoring in Germany your car must be equipped with a plate indicating its make, horse power and weight in kilos. Foreigners must report to the police and produce their license, which then must be endorsed by a German official.

Complete information about touring abroad can be had from the United States Lines which operate the U. S. Shipping Board.

Women in many parts of China believe that water drawn after midnight of the seventh day of the seventh month can be used to cure many diseases.

SLEEPLESSNESS
Virginia Lady Says That Many of Her Long-Suffered Ills Have Fled Since She Took Cardui.

Bristol, Va.—"I can sleep good at night now, something I have never done before in my life," says Mrs. Deala Hawks, of 712 Prospect St., this city, "and it is due to Cardui."

"I was always nervous and tossed when I should have been asleep, but since I took Cardui it has strengthened me, and my general health is so improved that many of the ills from which I have suffered for years have fled."

"I used to go to bed tired and, when I would get up in the morning, I was still tired. Now I feel like doing a day's work in my garden or in the house, and I owe all this good health to Cardui, for I had suffered for years until I took it."

"I had had female trouble for years and once, for six months, I was flat on my back. I am glad to recommend to other women a medicine which has helped me."

If you are nervous and run-down in health, suffering as Mrs. Hawks describes above, it is probable that Cardui will greatly help you. Try it. NC-167

SHAWNEE MAN NAMED CHOCTAW FAIR JUDGE

HUGO—Charles M. Smith, poultry service director of the Shawnee Milling company, a well known breeder, exhibitor and judge and former government expert, will assist in the poultry judging at the Choctaw County Fair, it was learned Thursday.

Smith will arrive here Tuesday. His mission is to demonstrate the Climax feeds, manufactured by the Shawnee mills and sold by the Hugo Milling company. He is one of the outstanding poultry judges and experts of the United States. He was formerly poultry specialist with the United States department of agriculture and later poultry specialist with the Oklahoma A. and M. college.

For 25 consecutive years he was either a judge or an exhibitor at the Madison Square Garden Poultry show in New York. For a number of years he operated a large commercial plant of more than 4,000 White Leghorns. At one time he bred and exhibited 60 varieties of chickens, 200 varieties of pigeons, 12 varieties of pheasants and a number of waterfowl. He received the American Poultry association judge's license in 1906.

Poultry raisers of Choctaw county are invited to bring their poultry problems to Mr. Smith while he is here. The fair is considered fortunate that he will be present.

Rodent Pest Controlled

TUCSON, Ariz., Aug. 28.—Arizona farmers and stockmen increased their profits by \$25,830 during the past year as a result of rodent control carried on under the bureau of biological survey and the agricultural extension division of the University of Arizona, according to an estimate issued here.

Prairie dogs were exterminated from several counties. Relentless war also was carried on against gophers, jack-rabbits and cotton-tails. Poison was found most effective method.

FACTORY CLUB NOW PLANS EXHIBITION

Ardmore Industries Will be Represented in Nearby Counties

ARDMORE.—Each member of the Ardmore Factory club is to prepare an exhibit of his products which will be used to make a large exhibit for the entire club to be displayed at the fairs of the surrounding counties. The club committee which has charge of the exhibit, headed by Orville Fraley, advises all members who are to exhibit to bring their displays to the Fraley mill at the corner of Third avenue and E. st., northeast, by Friday noon.

The fairs at which the club has secured space for displays are: Murray county at Davis, Sept. 11-12-13; Marshall county at Marietta, Sept. 4-5-6; Love county at Madill, Sept. 2-3-4-5; Johnston county at Tishomingo, Sept. 11-12-13; Carter county at Ardmore, Sept. 10-11-12-13; Headton fair at Headton, Sept. 16-17-18.

The Factory club is one of the most active organizations in Ardmore and has kept up a steady program to increase trade and build a larger market for Ardmore-made goods.

Ruth Found Guilty Of Speeding; Not Guilty of Drunk

SULPHUR.—Charles H. Ruth, supreme court commissioner, representing the state's highest tribunal, accepted a fine and reprimand here last Thursday afternoon from Mayor J. I. Young, representing one of the state's most humble courts, at the conclusion of Ruth's trial on a charge of being drunk and speeding. The alleged offense occurred in the complaint was said to have been committed here July 19.

Mayor Young found Ruth guilty of speeding but not guilty of being drunk. He reprimanded the defendant severely for his alleged violation of city ordinances.

FOREIGNERS COMING TO PETROLEUM EXPOSITION

TULSA.—Indications of a veritable foreign invasion sweeping down upon Tulsa for the Petroleum Exposition become more apparent with every mail received from Europe at the oil show office. One of the most important of these visitors was heralded this morning when word was received from Alfred Wirth, president of the company which bears his name, of Erkelsau, Rhineland, Germany, that he will attend the exposition in person.

Wirth, who manufactures oil field equipment for every field in Europe, Asia and South America, but which has never been marketed in this country, will personally supervise the installation of his exhibit, his purpose in coming, however, being to acquaint himself with the American oil industry and its leaders. The Wirth company will exhibit two complete models of types of rigs popular on the continent, the models being from three to four feet in height.

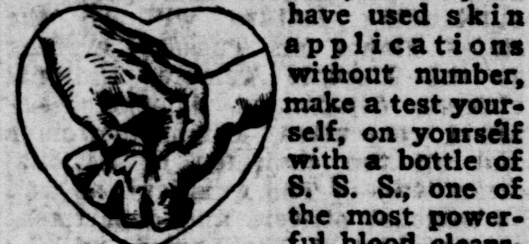

In the same mail came word from another leading German company,

making inquiries about the exposition, and stating that they were sending one of their number to study the American oil industry and its gathering. A third company, "Erda," of Gothenburg, Germany, has now completed its arrangements for his exhibit, which will be of geological instruments, especially those employed extensively in petroleum geology.

Fully a score of the most prominent officials from a variety of branches of the oil business in France, Germany, England and Italy have thus far made arrangements to attend, and in addition an increasing representation of Mexican oil men will bring the viewpoint of every field of the world to the vast clearing house.

Stop that Eczema!

A MAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with

without number, make a test your self, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no proven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Back Bad Today!

Then Find the Cause and Correct It as Other Ada Folks Have.

There's little rest or peace for the backache sufferer. Days are tired and weary—Night brings no respite. Urinary troubles, headaches, dizziness and nervousness, all tend to prevent rest or sleep. Why continue to be so miserable? Why not use a stimulant diuretic to the kidneys?

Use Doan's Pills. Your neighbors recommend Doan's. Read this Ada case: Mrs. R. A. Sullivan, 231 W. 6th St., says: "I had pains across my kidneys and my back was weak and lame. When I stooped, my back hurt so badly I could hardly straighten and, too, dizzy spells came over me when specks blurred my sight. Doan's Pills cured me of these troubles."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Sullivan had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

QUARRELED SINCE WEDDING DAY

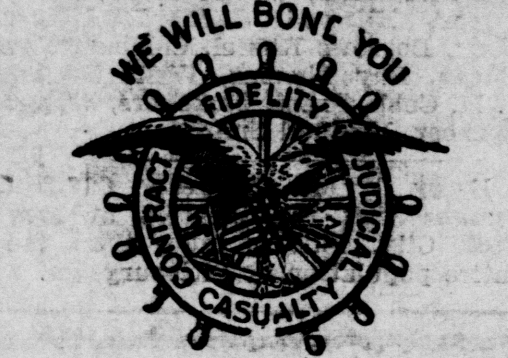

"My stomach and liver trouble made a regular grouch of me. I was sore at everyone, including my wife, and we quarreled every day since the wedding. She is a dear little girl and I know it was my fault. Mayr's Wonderful Remedy was recommended for my stomach trouble, and since taking it I have felt like a new man. My wife and I now get along beautifully." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and leading druggists everywhere.—Adv.

FRENCH COURT TO BE RID OF BIG STATUES

(By the Associated Press)
PARIS—Nearly a million francs of the million dollars given by John D. Rockefeller, Jr., for the restoration of the Cathedral of Rheims and the Palaces of Versailles and Fontainebleau will be required to remove the gigantic statues that line the Court of Honor leading to the main entrance to the Chateau of Versailles.

Every visitor to the palace has remarked these figures which represent men noted in the history of France, Conde, Turenne, Richelieu, Du Guesclin and Bayard among them, and most have wondered why they should be there as they evidently do not fall in with the scheme of things. They were originally made for the Concorde bridge in Paris but their exaggerated dimensions dwarfed the bridge to such an extent that King Louis Philippe had them moved to Versailles, thinking no doubt that nothing could dwarf that mighty work, but they were huge enough even for that.

Only the expense has prevented their removal years ago so that advantage has been quickly taken of Mr. Rockefeller's generosity to carry out the long wished for improvement even at a cost of 980,000 francs.

It requires the constant efforts of 10 men to keep the 11,000 panes of glass in the Equitable Building in New York City bright and shining.

(By Harry Miller)

Probably the finest camp of all the season is this last one, which 23 boys took to Blue on Corbin's ranch. Professors Hugh Norris, and M. Z. Thompson will be in camp on Friday evening and Saturday with the scouts and conduct the camp fire at night. Saturday night Mr. and Mrs. Claude McLean and Prof. Marvin Hatchett will join the group and conduct the camp fire Saturday night.

Judge Orel Busby, president of the Council and Mrs. Busby and children are expected as Sunday guests. The following boys went on the trip: Marshall Walters, Lee Couch, Duke Little, Orville McCoy, Kenneth Gillock, Champion Turley, Homer Wilhite, Willis Fisher, Shelton Dandridge, Ernest Jones, Ennis Payne, Ellwood Goddard, Homer Peay, Borrows Russel, Coleman Van Curon, Ray Thomas, Willie Brown, J. M. Cobb, Frank Chambers, Wayne Spencer, Wendell Smith.

Every day in the year 667,840 persons visit the theaters of New York City. This is more than the entire population of Pittsburgh, Pa.

ST. PAUL PREPARED TO RECEIVE LEGION HORDES

(By the Associated Press)
ST. PAUL, Minn., Aug. 28.—The four convention halls which will house the national gatherings of The American Legion, The American Legion Auxiliary and The Forty and Eight, to be held here September 15 to 19, will have accommodations for nearly 20,000 delegates, according to Judge Royal A. Stone, general convention chairman.

A stage with a seating capacity of 4,000 persons has been placed in the municipal auditorium, where the main sessions of the convention will be held.

The Legion Auxiliaries sessions will be held in the Central Presbyterian church and the Forty and Eight will meet at the Junior Pioneer Hall. Special offices for Legion officials will be arranged in the senate chamber of the old capitol building and in the armory.

Judge Kenesaw M. Landis will address the Legion Auxiliaries. The outstanding feature will be the states dinner on Tuesday evening at the Masonic Temple. National officers, department delegates, national executive committee members and all the chairmen of national committees of The Auxiliaries, as well as national officers and department commanders of The Legion, will be present.

Memorial services will be conducted by Mrs. Dora Platner of Ellis, Kansas, national chairman of the Gold Star committee.

Carlsbad Cavern Visited by Governors of two States

(By the Associated Press)
AUSTIN, Texas, Aug. 29.—Dangling at the end of a wire rope 17 feet into the underground home of many thousands of bats, the governor of the largest state in the union and the governor of an adjoining state recently explored the great Carlsbad cavern, discovered not long ago in the Guadalupe mountains of southeastern New Mexico. The only means of progress is in a steel bucket, which holds two persons, if they are not too large. The two governors, Pat M. Neff, of Texas and J. F. Hinkle, went down separately.

The less scenic part of Carlsbad Cavern has been known for many years as a bat cave. Recently explorers traversed several miles of its halls and chambers, and some parts of it were found to have such startling magnificence that President Coolidge by proclamation set it aside as the Carlsbad National Monument.

This cave is among the largest in the world and presents many marvels. From prehistoric times it seems the bats have made their homes here amid the striking underground scenery. For several years large quantities of quano have been shipped from the cave.

line. Before the German Orient line, which is a Stettin and Hamburg concern, was ready also to merge, it insisted upon receiving 50 percent of the shares of the Levant line. This was conceded, whereupon the entire oriental service was combined in one concern. This means that freight rates can be offered that will successfully underbid, it is claimed, those of other countries.

This combination of shipping companies doing business in the near East is regarded as but a first step in the direction of actually putting all German shipping under one hat. By pooling interests the German lines hope to make it possible to throw their tonnage in whatever direction business is best, without having to keep up established schedules merely for the sake of prestige.

Cactus Planted as Novelty Becomes Nuisance in Australia

(By the Associated Press)
TUCSON, Ariz., Aug. 29.—Forty years ago species of southern cacti were introduced in Australia as a novelty but now they have become such a nuisance that every effort is being made to get rid of them, reported C. F. Dodd, an Australian agriculturist, who has been here looking for cactus-eating insects which might be transferred to Australia.

Mr. Dodd conferred with experts at the University of Arizona. Several vicious types of insects were suggested, and the visitor began experimenting with their power of destruction. The few cactus plants transplanted in Australia came from Arizona.

By Byron Norrell

H. G. Clark raised a few soy beans at his place in Ada this season and brought a small plant to the News office containing more than 100 developed pods. Due to the dry weather the pods were not as large as they sometimes grow, but he clearly demonstrated that the crop can be raised to advantage here.

In recent years some cotton farmers have doubted the advisability of thinning cotton very much. On a recent trip I saw a patch near Vannoss that had not been thinned. It belonged to H. B. Williams who explained that it being very late he thought it better to leave it moderately thick in the row. It looked very well and promised a fair yield. However, Mr. Williams thinks cotton planted earlier should be thinned.

Running-water systems were installed on more than 3,100 farms during 1923, according to reports to the United States department of Agriculture by farmers and farm women who, through the efforts of agricultural extension workers, were interested in demonstrating ways in which this convenience may be economically placed in farm homes and farm buildings.

Sour cream producers allow their cream to sour before they deliver it to a creamery, thinking that the sourness results in a higher test. This is a mistaken idea, says Prof. M. Mortenson, head of the dairy department of Iowa State College. Sour cream does not test higher than sweet cream, since the development of lactic acid, the souring influence, does not affect the fat content of the cream. The producer of sour cream invariably loses, since he is marketing a product which is of lower value than clean, sweet cream.—Wallace's Farmer.

German Prisoner Flees to Wed. Keeps Promise to Return to Cell

(By the Associated Press)

BERLIN.—Friz Linker, serving a sentence for theft, escaped recently and wrote a letter to the jailers saying he was then on his honeymoon and that he would return as soon as the wedding tour was ended. In three weeks Linker gave himself up.

When he wrote the letter, he said, he had no such intentions, but his wife heard of his promises and insisted, Linker informed the jailers, that he keep his word and go back to prison and she would be awaiting him again when his time was up.

GERMAN STEAMSHIP LINE SEEKS BETTER EFFICIENCY

HAMBURG, Germany.—The shipping companies of Germany have effected a pooling of interests that will be of far-reaching importance to shippers everywhere. The new arrangement practically eliminates competition between German concerns, and substitutes therefor a close coordination of the entire German shipping industry.

The most far-reaching arrangement is that covering the lines doing business with the Orient. The German Levant line and the German Orient line have merged. The Levant line in turn represents a merger of the German Levant line, the Bremen Aro line and the Bremen Atlas line. All of the shares of the Levant line were in the hands of the Hamburg America

Why does the sun fade colors?

—because the heat rays burn and destroy certain chemicals in dyes. Far more quickly and effectively.

Puretest No. 6 Disinfectant destroys dangerous germs and insects and purifies whatever it touches.

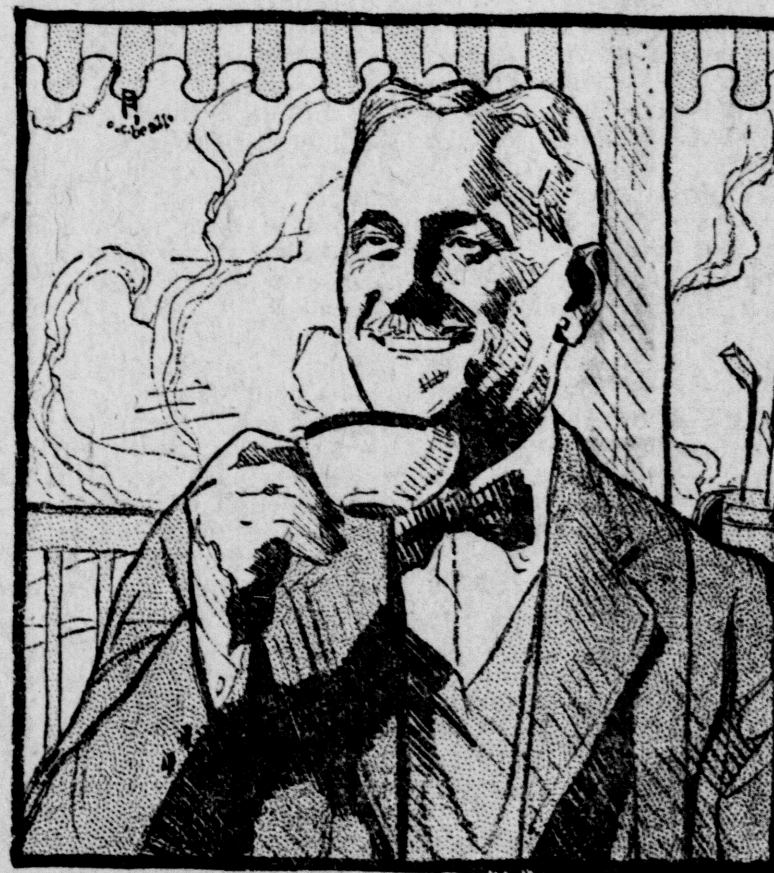

Puretest No. 6 Disinfectant acts like cleansing sunshine where sunshine cannot reach. Ten times more powerful than carbolic acid, yet absolutely safe. Use it for cleaning, scrubbing, for personal hygiene. Use it wherever you want things sanitary.

One of 200 Puretest preparations for health and hygiene. Every item the best that skill and care can produce.

"Good to the Last Drop"

THE finest coffees of the world are brought to the five Cheek-Neal plants, cleaned, roasted and blended—then packed in the sealed cans. But the process which is the true reason for the delightful flavor of Maxwell House is one of intelligently using the skill that fifty years experience has taught.

The flavor of Maxwell House Coffee is dependable, unchanging, always "Good to the Last Drop."
